

LETTER OF QUALITY ASSURANCE

To whom it may concern,

All our quality products do not contain heavy metals or carcinogenic by-products.

Our products are safe to use on all food industry surfaces, providing correct cleaning procedures are put in place at all times. Safety wear must be used at all times, for example, safety glasses/face shield, mask, gloves, apron, boots etc.

All food surfaces must be rinsed down thoroughly with fresh potable water after chemical cleaning.

Any no rinse sanitisers/cleaners should be used at 100PPM level of quat or chlorine. For safety, please flush all food surfaces after the directed specified times.
